Brunswick MAIN STREET Annual Report 2019

We envision downtown Brunswick as the **focal point** of entertainment, shopping, and tourism for the community. We hope to help downtown Brunswick become a **lively place** where events and activities are always ongoing. We see a place where **people are strolling the streets**, shopping, dining outside, listening to music, or walking down to the river on a summer night. It is an exciting downtown, where the **community comes together** to **celebrate our heritage** and to engage with downtown merchants throughout the year. With this vision, Brunswick Main Street hopes to improve the quality of life for everyone who lives, works, and visits here.
